

What to do if you need to make a motor trade claim

Our Motor Trade policy covers companies in the UK that work with vehicles, such as automotive franchise dealerships, accident repair centres, body shops, and sale, service, and repair garages. Cover is available in a package policy including core covers Motor, Property and General Liability.

We're proud of our record for handling claims rapidly, efficiently, and fairly. Our first priority is always minimizing the impact a claim will have on your business. When it comes to claims, we're happy for you to judge us, not on what we say, but on what we do.

Reporting a claim

Vehicle damage

If your motor trade claim involves damage to a vehicle, even if there are additional elements of damage to property and/or an injury claim, please report your claim to our motor teams who will ensure the other elements of the claim are directed accordingly. You can make a claim 24 hours a day, seven days a week.

The benefits of early reporting

Vehicle claims - The sooner we know, the sooner we can get your vehicle back on the road. If your drivers at fault and there's a third party involved, telling us straightaway means we can keep costs down.

By offering to repair the third-party vehicle, we can significantly reduce repair costs, credit hire and legal costs. This in turn helps keep your premium down.

Property and Casualty claims - Where an incident has arisen that may give rise to a claim, notification should be made to QBE in line with policy requirements.

This enables early investigation or intervention and can help mitigate the cost of the claim, should one be received.

What happens next?

Vehicle Claims - Once you've notified us, you'll benefit from our approved repair network, fixed labour rates, and a proactive parts management service. This gets your vehicle back on the road up to seven days faster than using non-approved repairers.

Our service includes

- > Nationwide repair capability for all vehicle types
- > Market leading labour rates
- > Mobile repair service for minor damage
- > Free vehicle collection and delivery
- > All repair work guaranteed for three years

This service is available to all customers with comprehensive insurance. All you pay is any applicable excess and VAT. In the event the vehicle is a total loss our qualified engineers will inspect and value your vehicle. In the event of a non-fault incident we will engage uninsured loss recovery services for you.

Property and Casualty claims - Once we have received and reviewed your claim, we will contact you to advise next steps. In some circumstances, we may appoint a loss adjuster to visit the location of loss and help with the assessment of the claim.

The documents that will be required for any claim registered will be specific to the type of accident that has occurred, however, claims adjusters will make any specific requests for documentation after they have reviewed the allegations presented.

Handling a major loss

Our major loss team is here to support you and your broker in dealing effectively with even the most complex of claims. The team provides a rapid, effective response to all major incidents, including serious and catastrophic personal injury claims, property damage, and product liability losses.

You can rely on our experienced team for technical expertise, continuity of service and good communication, every step of the way.

Working for a better world

At QBE, we believe in seeking, securing, and nurturing sustainable partnerships in everything we do. And that focus is not limited to commercial concerns. It's also reflected in how we invest our premiums and support the communities in which we operate.

Premiums4Good

Like all insurers, QBE invests customers' premiums until they're needed to pay claims.

Not afraid to do things a little differently, our ground-breaking initiative, Premiums4Good, diverts a portion of our customer's premium to impact investments that deliver an environmental or social impact or return.

These investments make a real and sustainable difference to communities around the world, benefiting causes such as reducing homelessness, renewable energy, improving chances for foster children and agricultural productivity. Our customers have embraced this approach.

QBE Foundation

We want to help find solutions to the problems of tomorrow, but we also want to tackle those the world is facing today. That's why we established the QBE Foundation to direct our charitable efforts to the most pressing issues.

Through the Foundation, we want to establish long-term partnerships, supported by education and awareness around risks, to improve the resilience and preparedness of our communities so they are better equipped to protect themselves.

We want to help create strong, resilient, and inclusive communities, by focusing investment and efforts on two key areas where we believe we can have the greatest impact: climate resilience and inclusion.

Since launching the QBE Foundation in 2011, alongside our employees, QBE in Europe has donated more than £10 million to worthy causes.
