

# An exclusive opinions service for QBE Trade Credit clients

**Our QCheck service helps clients assess the creditworthiness of UK and Ireland customers and provides the insurance cover and support that you need to grow your business confidently. It is available to all our UK domiciled clients who have a discretionary limit facility.**

Whether you wish to increase the credit line with an existing customer or evaluate a new customer, QCheck will assess the buyer and issue you with a QCheck opinion which serves as justification within your Discretionary Limit.

QCheck gives you flexibility because it provides an opinion not a definitive limit. The opinion can be increased by using trading experience. If the decision is negative you can override it by using other approved sources endorsed under your Discretionary Limit.
